OO / HO Motorised Track Cleaner

Product code: **B800:**

POSSIBLY
THE BIGGEST SELLING MODEL
IN THE
WORLD!

The Dapol Track Cleaner enables the modeller to have a pristine track surface by offering the following functions:
Fine scrub cleaning + High suction vacuum + Light application of cleaning fluid +
Smooth polishing of track surface + Brush sweep - all contained within the one model.

The model operates on standard DC 'out of the box' but is also 8-pin DCC ready for fitting of either single or dual function chip, and has NEM coupling pockets compatible with US HO Kadee Buckeye & EU HO Roco style couplings.

The Track Cleaner is fitted with a motor to enable on-board driving of the cleaning functions and therefore it still needs to be hauled by a locomotive. However, as it is DCC ready, by fitting the chip you will have independent control over the various functions.

Three scrubbing and three polishing pads are included within the pack.

Accessories : Spare Pads : Cleaning Fluid

B803: Accessory Pack

Contains all the spare parts needed to keep your track cleaner in tip-top working condition

B804: Spare Pads

Contains 10 x cleaning and 20 x polishing pads

B805: Track Cleaning Fluid

100ml bottle of specially formulated liquid for use with our track cleaner

B806: Replacement Pick-Up Springs

Tomix 'N' Motorised Track Cleaner

Product code: **6421**

This superb DC-only product enables the complete cleaning of 'N' track. It scrubs, vacuums and polishes as it travels.

Product code:
6424

Pack of spare cleaning & polishing pads

'00' locomotive

Class 22

NEW
MODEL

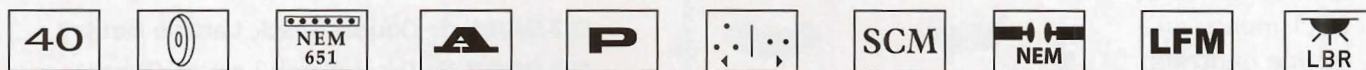

"Please note picture of a first engineering sample and not indicative of finished model".

The Diesel Hydraulic Class 22 locomotive was introduced in 1959 with 57 units being built.

Our models will feature state of the art mechanisms with full 21 pin DCC on board connectivity and the provision for a large sound speaker within the fuel tank.

- D1000a:** D6324 BR Blue split box full yellow end **D1000b:** D6326 BR Blue split box full yellow end
D1000c: D6314 BR Green split box small yellow panel **D1000d:** D6319 BR Green split box small yellow panel
D1000e: D6327 BR Green split box small yellow panel **D1000f:** D6332 BR Green split box no yellow panel

Please note the change of running numbers to this product more accurately reflects the initial version of the model we are producing.

NEW
MODEL

Class 21/29

Built in 1958 by North British and subsequently rebuilt into Class 29's with a Paxman Ventura power unit, these engines started life based at Hornsey Depot in North London. After only a few years of duty they were reallocated to the Scottish Region from 1960, and continued there until withdrawn in 1971.

Dapol's models will feature see through spoked wheels that first featured on the Class 22, a 21 pin DCC socket, directional lighting and a wealth of detail.

Provision of a DCC sound speaker space (with enclosure) within the body will help enhance this model for the DCC sound enthusiast.

self-assembly '00' plastic kits

Please note: The images showing below are a representation of how our kits may appear AFTER construction and painting by the buyer

The Dapol factory operates under

a 'Green' policy. No plastic is
ever 'Thrown Away'. We re-use

plastic through a system called
'Re-Grinding'. Our kits are made

with 'Re-Grind' plastic and therefore the colours of the
plastic will be different between batches. This does not
affect the quality or performance of the kit.
After four cycles of 'Re-Grinding' any residue plastic is
sent to a Re-cycling plant where it is used to form the
protective banding around newly planted trees.

Special commission wagons + locomotives!

Dapol are the leading supplier of 'special commission' wagons in the UK - and probably the world! Because production is undertaken in the UK, we can set our minimum wagon order level at just 150 units and can offer a delivery time of about 12 weeks from confirmation of final artwork approval.

The good news is that we can also offer a similar service for N-gauge LOCOMOTIVES.
Our minimum order level for stock locomotives is just 250 units.

If you are interested in either wagons or locomotives - please contact us. We are here to serve.

N'thusiasts Club

N'thusiasts Club

The Dapol N'thusiasts Club is organised and run for the benefit of modellers in 'N' gauge.

Upon joining, your "Welcome Pack" contains quality Club Branded:

Mug + Enamelled Badge + Pen + Notepad + Members Card with Lanyard + Free Wagon.

During your year of membership you are also offered the following exclusive opportunities:

- * Acquisition of Dapol products not available anywhere else.
- * Invitation to a special 'Members Open Day' at our offices where we entertain you and show you our brand-new and future products before anyone else.
- * Access to Dapol stockists who will offer you discounts at their premises.

You can join via our website, by telephone or by mail. We look forward to welcoming you into the Premier UK 'N' gauge club.
